

Why are Property Taxes so high?

Income tax cuts since 2005 have mostly gone to the wealthy

- Ohio income tax cuts have favored the rich.
- For incomes > \$647,000 taxes have been cut by \$60,000/year.

Source: Policy Matters Ohio

Always GIVEAWAYS to businesses, corporations, and the rich

- Property taxes for businesses dropped from 54-32%
- Property taxes for homeowners and farmers raised from 46-68%
- Businesses get hundreds of tax credits, exemptions, grants, and loans.
- 7% inheritance tax in Ohio ended in 2013 for estates on amounts > \$500,000
- \$600 million for the billionaire owners of the Cleveland Browns.

The Ohio Legislature and Governors did this.

Always CUTTING benefits to the poor and middle class

- Cuts to public schools yet > 1 billion per year to private school vouchers.
- Cuts to free school lunches, Head Start, SNAP, Medicaid and the Affordable Care Act.

The current Ohio legislature/Governor will do nothing to remedy these cuts.

The burden has been shifted onto the Property Tax.

1 Political Party made each decision that led us here during 33 years of control in Ohio
